

Pedro Alves

Operations & Technical Solutions Specialist

pedroalves.dv@gmail.com / +33 6 69 77 34 15 · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)
Based in Paris / Porto · Open to Remote

Versatile professional with over a decade of experience bridging the gap between creative vision, operational excellence, and technical execution. Expert in scaling multilingual workflows, automating processes with AI, and building full-stack applications. Proven track record of leading high-stakes projects—from award-winning 3D experiences at FoST to AI-driven SEO platforms. I thrive in fast-paced, international environments where precision and clear communication are paramount.

SKILLS

- Languages: French (Native) · English (Fluent) · Portuguese (Fluent) · Spanish (Conversational)
- Development: JavaScript, TypeScript, React, Next.js, Node.js, Python, FastAPI, REST APIs
- AI & Automation: Prompt Engineering, LLM API Integration, AI-assisted workflow design
- Operations & Tools: CRM Management, Agile/Scrum, Notion, Trello, Figma, Adobe Suite

EXPERIENCE

Digital & Operational Project Manager — Freelance | 2019 - 2026

- AI Integration: Developed and deployed custom AI-assisted content workflows using LLM APIs, reducing manual production time by an estimated 30%.
- Lifecycle Management: Managed end-to-end digital delivery for global clients, overseeing art direction, UX improvements, and technical updates in a 100% asynchronous environment.
- Stakeholder Coordination: Acted as the primary bridge between creative and engineering teams, translating business requirements into actionable technical specifications.

Customer Support & QA Team Leader — XCSE/Abramo | 2014 - 2016

- Rapid Advancement: Promoted from Support Agent to QA Team Lead within 5 months based on performance and operational insight.
- Multilingual Leadership: Managed a high-performing QA team across French, English, Portuguese, and Spanish markets, ensuring 98%+ service-level compliance.
- Process Engineering: Built the department's internal documentation library and support templates, cutting onboarding time for new hires by 40%.

Art Director — DV Group | 2018 - 2019

- Award-Winning Execution: Coordinated cross-functional creative and dev teams for the 3D theatre experience "THR.V"—nominated at La Mostra Venice Film Festival and awarded at the Festival of Storytelling.

Media Manager — Peres Projects | 2016 - 2017

- Global Operations: Directed media operations and partner relations across international art markets, managing logistics for high-profile events and tracking global publication metrics.

Operations Assistant — Nomadism | 2020

- Logistics: Managed fleet coordination and inventory tracking for a high-turnover vehicle rental startup, optimizing client check-in/out protocols.

PROJECTS

Microgen (AI SEO Tool) | Python, FastAPI, Google Gemini, Next.js

- End-to-end tool that generates full SEO content briefs and publish-ready articles from a single keyword.
- Semantic analysis via Gemini API to ensure high-quality, human-like output.

Meridian (Time Zone Visualizer) | Next.js, Geolocation APIs

- High-utility app for remote teams featuring automatic location detection and interactive time zone tracking.

E-shop Prototype | Next.js, Shopify Storefront API

- Headless e-commerce solution focusing on performance, SEO, and responsive design.

EDUCATION

- Full-Stack JS Web & Web Mobile Developer — O'Clock (6-month intensive) | 2024
- Bachelor in Visual Communication — HTK Berlin | 2016
- Graphic Design Certification — MJM Graphic Design | 2012
